

Lift Plus Energy Solutions

Confidential

Lift Plus Energy Solutions

- Lift Plus Energy Services has developed a patented pumping technology to pump high volume, high temperature abrasive fluid
 - Powered by high pressure gas available at most SAGD pads. Doesn't require electricity to power the system
 - Greatly reducing GHG emission
- Proven technology with 7 year run in a SAGD producing well
 - Currently there are 2 systems that have been operating in SAGD producers for 18 months
- Improved ESG, Capex, Opex, SOR expected benefits

Lift Plus and ESG

Lift Plus System impact on ESG is second to none.

Did you know...

That the decision to replace a **150HP Insitu SAGD ESP** Artificial Lift System with a Lift Plus System has the same carbon offset Equivalency Results as:

Avoiding Greenhouse Gas Emissions from **151 Cars**

Avoiding Greenhouse Gas Emissions by **26,319 incandescent lamps** switched to LEDs

The amount of Carbon Sequestered by **11,482 tree seedlings for 10 years**

The amount of Carbon Sequestered by **851 acres of forest for 1 year**...about the size of **640 football fields**.

This environmental impact is from only 1 Lift Plus System. Want to learn more? Contact us at www.liftplus.ca

An aerial photograph showing a wildfire. A dark, charred area of ground is visible, with a line of bright orange and yellow flames along its edge. A plume of white smoke rises from the fire. The surrounding area is covered in dense, green and yellowish vegetation.

**1 Lift Plus System
replaces 340
hectares of lost
forest to wildfire**
